REVIEW OF CASES INVOLVING CIVIL PENALTIES SINCE THE LAST MEETING:
-There was a discussion about cases 2013/1063, 2013/1102, and 2013/1403; OISC staff responded to IPRB questions.

PLAN FOR REVIEW OF BUSINESS LICENSE INSURANCE REQUIREMENT & DISCUSSION AT NEXT MEETING:
-After considerable discussion, it was determined the following should be researched prior to trying to address the question of liability insurance requirements for licensed businesses:
1) need to meet with actual insuring companies
2) determine if OISC could require a form for sign-off by insurance providers
3) determine who may have authority over insurance providers who may sign forms fraudulently
4) determine if data is available to do trend analysis to see if there is a serious problem
-Until the issue can be properly researched and vetted OISC will continue to exercise reasonable regulatory discretion in the administration of the insurance rule.

**Implications of federal pollinator protection labeling to Indiana’s program & applicators:**
- Reid Sprenkel, CEO and President of Field Watch, the parent company supporting the DriftWatch sensitive crop mapping tool made a presentation highlighting the evolution and current status and features of Drift Watch; there was a discussion regarding how Drift Watch may be used as a central communication piece in any state plan for protection of pollinators from exposure to potentially harmful pesticides.

**Need for review of pesticide bulk storage and containment rules prior to sunset:**
- Bruce Bordelon and Mike Titus…motion to readopt existing rules without changes prior to the sunset date; vote was unanimous.

**OISC comments on proposed revisions to U.S. EPA Worker Protection Standard rule:**
- OISC has concerns about several of the proposed rule provisions; OISC has been sharing draft comments with Indiana Farm Bureau, Indiana State Department of Agriculture, Association of American Pesticide Control Officials, and others; the comment deadline is August 17, 2014; final comments will be shared with IPRB.

**Review of common run-off language on pesticide labels; is it adequate?**
- OISC made a presentation (copy attached) regarding the recent history of run-off incident investigations in Indiana, providing examples of the type of language on current pesticide labels; IPRB asked for a listing of characteristics of pesticides most likely to run-off following application; IPRB requested a more detailed discussion at a future meeting.

**Next meeting:**
- The next meeting was targeted to occur on August 29, 2014.
