Work group report on HEA 1623 to the IPRB Chair

To: Ronald Hellenthal Ronald.A.Hellenthal.1@nd.edu

From: Green, Lee LeGreen@health.in.gov

Date: 5/24/2023

Ron,

Per the request of the Indiana Pesticide Review Board (IPRB), a work group comprised of myself (chair), Bob Andrews, Jamey Thomas, Fred Whitford, John Baugh, and Steve Wenning met today to discuss the Office of the Indiana State Chemist impact analysis regarding HEA 1623 and to determine the next appropriate steps for the IPRB. During the meeting, Dave Scott presented to the committee the attached PowerPoint and we discussed the impacts of each issue. The committee has determined that an interim rule is NOT needed at this time. Therefore, because we do not currently see a need to make an interim rule and we are still awaiting a review from the Office of the Indiana Attorney General, we also recommend to postpone the next IPRB meeting that was scheduled for June 22, 2023. We can wait to have a meeting on our regularly quarterly basis unless a new action item comes to light.

Please let me know if you need any more information,

Thank you,

Lee Green | *Senior Medical Entomologist*
